## Blizzard 2010

Winterizing Wax

BLIZZARD 2010 is a special blend of silicone and wax that provides a slick, non-stick coating that prevents ice and snow from sticking to plows, shovels and other snow removal equipment. Once a surface is treated with BLIZZARD 2010 it also becomes water and rust resistant. BLIZZARD 2010 provides superior release action and lubrication to reduce drag and sticking of many materials to metal other surfaces. BLIZZARD 2010 is also excellent for use on road signs to keep snow or ice from sticking and allow for easy readability. BLIZZARD 2010 helps increase the efficiency of snow removal, material handling, turf maintenance and road equipment.

Product #ABZ534

### Areas of Use:

- Plow Blades
- Mower Blades
- Signs
- Shovels
- Road Equipment
- anywhere else a non-stick coating is desired

### Effective Against:

- Snow
- Ice
- Salt Corrosion

Contract # 47QSWA20D0008

**Advantage!**  
[www.usaadvantage.gov](http://www.usaadvantage.gov)

### Directions for Use:

Shake well before using. Spray surface from a distance of 12 to 14 inches. Allow a moment for wax coating to set up before putting equipment into operation. After use, invert can and spray a short burst to clear valve.

### Specifications:

Classification	Aerosol
Color	Clear yellow spray
Odor	Solvent
Solubility in water	Not available
Flammability	Extremely Flammable spray
